Key Questions

Would your customer benefit by extending a branded content management and file sharing interaction experience with their customers?

Would your customer benefit by building stronger relationships with their customers, improve operational efficiency and provide a more seamless collaboration experience with their customers?

Do your customers have the need to share content with external users who can't access Box directly because the URL is blocked?

Do your customers have internal employees who need access to content occasionally but whom it would be cost prohibitive to purchase a regular Box license for?

Would your customer benefit by adding integrated business processes and and or third party applications with Box content for a seamless end user customer experience?
